DRONE LIVE OPERATIONS DAYS

Switzerland Innovation Park Ticino
Swiss Drone Competence Center - Lodrino (TI)

24 - 25 SEPTEMBER 2026

The background image shows a person from behind, wearing a dark jacket with the 'MAV Tech' logo on the back. They are looking at a drone flying in the air over a mountainous landscape. The drone is a quadcopter with a camera attached. The sky is blue with some clouds.

DRONE LIVE OPERATIONS DAYS 2026

Innovative Aerial and Terrestrial Solutions for Security, Civil Protection, Plants and Infrastructures monitoring, Agriculture.

Organized by **MAVTech**, in collaboration with **Info Solution**, the event will allow participants to attend live demonstrations, to deepen specific requirements and topics of interest and to share our know how about emerging technologies such as swarm solutions and drones / rovers collaborative applications.

*Established in 2005 from a spin-off of the Politecnico di Torino, **MAVTech** designs, develops and produces in Italy drones solutions for professional purposes.*

***Info Solution** develops autonomous mobile robots for security, infrastructure monitoring and precision agriculture through the MOLIRIS platform.*

SOLUTIONS FOR SECURITY AND CIVIL PROTECTION

THURSDAY 24 / 9.30 - 13.30

- 9.30 – 10.00 Participants registration
- 10.00 – 10.30 Organizers introduction: the companies and their solutions
- 10.30 – 11.00 **DEMO 1:**
